see below for more details

“Yes,
he is
really
nursing!”

Sizing Chart

Size	Size Equivalent	Bust up to cup size
XS	4	D
S	6 to 8	DD
M	10 to 12	DD
L	14 to 16	H
XL	18	H
XXL	20 to 22	H

For hands free pumping:

- Leave bra clasp attached and lift the top piece of the cami.
- Slip the flange of the breast pump in between the center front and the clasp of the bra.
- Adjust top and bottom pieces of the cami to hold the flange in place.

6 Reasons Why Every Mom Needs The Miracle Cami

- ◆ Patent pending lift and nurse design with full coverage of the breast while nursing.
- ◆ Large openings allow the baby to easily "position" for effective milk flow.
- ◆ Pumping can be done hands free.
- ◆ Holds a baby up to a 15 pounds skin-to-skin in the upright or in the breastfeeding position.
- ◆ Straps of covered cord elastic adjust for all sizes and stretch to accommodate holding a baby.
- ◆ Fabric is soft breathable, wash and wear, Rayon/Poly/Lycra fabric with bounce-back ability.

Positioning for Skin-to-Skin Care

- ◆ Slide the baby down from the shoulders to between mother's breasts. The inner bra stretches to fit and hold beneath the baby's bottom.

Positioning for KC Breastfeeding

- ◆ Unsnap the bra for nursing. Pivot the baby to nursing position inside the Cami. In nursing position the baby's head will come through the nursing openings. The top of Cami covers the breast and lower part helps position the head. The baby's head will rest in the bend of the mother's arm.
